

MIDWEST DENTAL IMPLANTOLOGY

Dr. Martin Kolinski and Dr. Tricia Crosby have designed their implant practice to work with your own dentist to provide excellence in care for patients in need of tooth restoration supported by dental implants.

Dr. Kolinski has been working with local dentists on teeth-in-a-day cases for over 13 years, and has placed over 13,000 dental implants. He is a recognized expert on immediate implant placement and has lectured nationally to many groups. *Chicago* magazine recently selected him as one of the "Top Periodontists" in Chicago.

Dr. Crosby is a Diplomate of the American Academy of Periodontology. She is a clinical* professor of Periodontics at the University of Illinois College of Dentistry and is on the board of the Illinois Society of Periodontists. Both Dr. Kolinski and Dr. Crosby are well versed in the latest treatment techniques and technology in implant dentistry.

Dr. Kolinski and Dr. Crosby provide ongoing classes for restorative dentists on innovations in implant dentistry. In the past year alone, they have had over 100 dentists attend classes held at their St. Charles office on teeth-in-a-day implant supported restorations. Their commitment to patient education begins on their Web site at www.midwestdental-implantology.com and continues with a patient-focused consultation.

When calling their office you will be warmly greeted by a business assistant available to take patient calls and answer questions. Their dental assistants and hygienists are both friendly and knowledgeable. The entire team is dedicated to high-quality, friendly, patient care, and considers it a privilege to serve their patients.
