

# The Art and Science of Implant Provisionalization

Tricia Crosby, DDS, MS, Martin Kolinski, DDS, William Trahan, DMD, MSD

---

In this fast paced, cosmetically driven world, patients are now seeking alternatives to the traditional Essix retainer or flipper to help bridge the gap between surgery and final restoration. Under the appropriate conditions an **immediate implant provisional** can be an excellent opportunity to meet these needs.

## Course objectives:

- ▶ To learn the when, where, and how of provisionalizing dental implants
- ▶ How to transfer gingival architecture to the laboratory
- ▶ Hands on course utilizing three different implant systems: Astra, Nobel, and Hiossen
  - ▶ *This hands-on course is AGD accredited*
- ▶ Different techniques and materials to make screw retained provisionals
- ▶ The progression of digital work flow in the dental office

# Fall 2017 Seminar Series

*This seminar will be given on 4 separate dates*

Tuesday, September 26th

Monday, October 9th

Wednesday, October 18th

Monday, December 4th

---

Time: 5:30 - 7:30 pm

Location: Our Office  
525 Tyler Road Suite E  
St Charles, IL 60174

Dinner: Compliments of Tricia, Marty and Will

*Space is Limited. Please reserve your space today by contacting Alexa Poulos at*

*630.377.4677*

*This course provides 2 CE Credits*

Tricia R. Crosby, DDS, MS

Martin L. Kolinski, DDS

William R. Trahan, DMD, MSD
