

DR. TRICIA CROSBY AND DR. WILLIAM TRAHAN PRESENT

The Treatment of Periodontitis in 2023 Where are we now?

Keeping up with changes and new discoveries in periodontal treatment can be a difficult task. New information and technology are regularly emerging, causing all of us to question, am I providing the best treatment for my patient? Couple this with research that has concluded that the prevalence of periodontal disease may have been underestimated by as much as 50 percent, and the implications are clear - we need a better understanding of this disease and the options for treatment.

This seminar will provide case examples and an interactive discussion that will include:

- Options for Treatment – Scaling and Root Planing, Traditional Osseous Surgery, Laser (LANAP), Guided Tissue Regeneration
- The PerioLase vs Diode Lasers for Treatment of Periodontal Disease what to use based on their working wavelengths
- Laser Assisted New Attachment Procedure (LANAP)
- When to Refer a Patient
- Evaluating the Success of Treatment
- Emerging Technology for the Periodontal Maintenance Appointment

Dr. Tricia Crosby, Dr. William Trahan & Dr. Martin Kolinski. Locally Approved PACE Program Provider for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority, or AGD endorsement. June 1, 2022 to May 31, 2025. Provider ID 217633

SEMINAR DATE

Wednesday

November 8, 2023

TIME

6:00pm - 8:00pm

LOCATION

Elgin Community College
The Seigle Auditorium, Bldg E
1700 Spartan Drive
Elgin, IL 60123

Registration Fee: \$20

Dinner Included

Space is Limited. Please reserve your space today by contacting Jaime at 331.901.5354

This course provides 2 CE Credits
